**PEPERONCINO ROSSO PICCANTE**

**Capsor**

**CHI SIAMO**

La Capsor nasce nel 1987 a Bologna, in seguito alla pubblicazione del libro di Ettore Liuni "Il Peperoncino: diavolo o santo?" dove venivano pubblicati i primi studi sulle proprietà terapeutiche del peperoncino. La richiesta di un peperoncino preparato secondo le sue particolari regole fecero nascere e sviluppare l'azienda dal figlio Angelo che cerca costantemente di mantenere in ogni prodotto la caratteristica di artigianalità e di alta qualità.

Il controllo delle materie prime si effettua dall'origine e cioè fin dalla coltivazione, che avviene vicino all'azienda in via esclusiva e seguendo le direttive necessarie per garantire sempre di più un prodotto di qualità e di provata efficacia. Il laboratorio e gli integratori alimentari da noi commercializzati sono Autorizzati dal ministero della salute.

La Capsor ha abbinato all'attività commerciale l'impegno verso la ricerca, creando il Centro Studi Capsor per il coordinamento della ricerca medica, la diffusione della conoscenza delle proprietà della preziosa piantina e la sua applicazione in ambito terapeutico.

Oggi l'attività commerciale spazia dalle specialità alimentari agli integratori, a prodotti erboristici orientati alla cura e benessere della persona, alla cosmesi per viso e corpo.

**COMPANY**

Capsor was founded in Bologna in 1987, following the publication of the book of Ettore Liuni "Hot Chili Pepper: devil or saint?" where the first studies on therapeutic properties of hot pepper were made public. The request for a hot pepper prepared according to particular rules gave birth to and developed the company of his son Angelo, who always tried to maintain in every product the characteristics of handicraft and high quality.

The control of raw materials is carried out at the origin, in substance just from the cultivation, that is made near the company in an exclusive basis and according to the directives necessary to guarantee more and more a product of quality and of proved efficiency.

The laboratory and the dietary supplements marketed by us are Authorized by the Ministry of Health.

Capsor has put in close association to the commercial activity a commitment towards research, creating the Capsor Study Center for the coordination of medical research, the diffusion of the knowledge of the properties of this precious plant and its application in therapeutic ambit.

Today the commercial activity extends from food specialties to dietary supplements, to herbalist products meant for the cure and well-being of people, to cosmetics for face and body.

## Croce Rossa Italiana L'umanità, al primo posto

Tra i principi della Croce Rossa Italiana c'è l'Umanità, intesa come genere umano ma allo stesso tempo come gesto verso gli altri. La Croce Rossa lotta solo contro tutte le forme di sofferenza, ma soprattutto contro quelle sofferenze che l'uomo subisce quando è indifeso o abbandonato a sé stesso. La Croce Rossa per questo si batte e opera ogni giorno per il rispetto della vita dell'uomo, della sua integrità fisica e morale, della sua protezione, della cura e del riconoscimento della sua essenza. L'Associazione della Croce Rossa Italiana nasce 150 anni fa ... Dall'accoglienza ai migranti che arrivano sulle nostre coste, in fuga da guerre e fame, al sostegno per le famiglie in difficoltà economica, dall'intervento nelle emergenze internazionali come la missione nel Kurdistan iracheno, alle calamità nazionali come il Terremoto nel Centro Italia, e l'emergenza freddo che ha inaspettatamente colpito l'intero territorio nazionale. Oltre alle numerose attività che la CRI quotidianamente mette in campo per aiutare i vulnerabili e per promuovere una cultura della salute e della prevenzione, non mancano i progetti per potenziare, migliorare ed implementare le realtà già esistenti. Questa è la fotografia dell'azione umanitaria svolta dalla Croce Rossa Italiana sia in tempo di pace che in tempo di conflitto... Oggi la Croce Rossa è presente in 147 paesi del mondo, con società Nazionali che operano in modo coordinato, e che insieme costituiscono la più grande associazione umanitaria esistente. Imponente l'impegno dei nostri volontari, circa 150 mila:

- Sono 14,7 milioni le ore di servizio annuale prestato
- 100 ore annue per ciascun volontario.
- 9 milioni di ore sono state impiegate per l'attività sanitaria, protezione civile e risposta ai disastri;
- 2,5 milioni di ore per le attività socio-assistenziali,
- 3 milioni le per le attività dei Giovani,
- 120 mila ore per la diffusione del Diritto Internazionale Umanitario,
- 25 mila ore per i progetti di cooperazione internazionale;
- 30 mila ore per la comunicazione e il fundraising.

Tutte le attività di CRI seguono un codice etico basato sui nostri 7 Principi:

**umanità:** soccorriamo e facciamo prevenzione per proteggere le persone, la loro vita, la loro salute ed i diritti della persona umana.

**imparzialità:** non facciamo alcuna distinzione discriminatoria nella nostra opera, diamo unicamente la priorità alla persona e alla urgenza dei suoi bisogni.

**neutralità:** vogliamo conservare la fiducia di coloro che ci sostengono e di coloro che aiutiamo, e per questo agiamo con neutralità.

**indipendenza:** nel rispetto delle leggi operiamo mantenendo la autonomia necessaria per i nostri obiettivi.

**volontariato:** siamo una istituzione di volontari volontario non guidata dal profitto.

**unità:** pur nella nostra capillarità siamo una unica associazione, unita, sinergica.

**universalità:** ogni programma di sviluppo della CRI si fonda su una visione globale dei bisogni.

# EBAY CHARITY ARTISTS

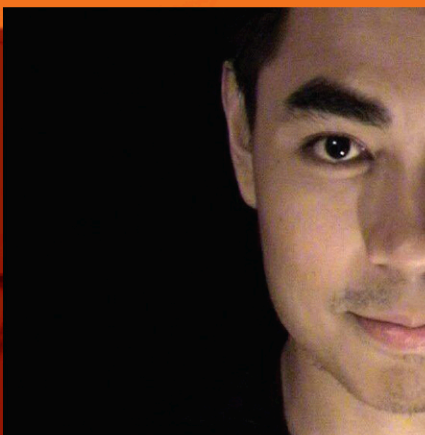

**Francesca Monte (Mermaid & Pussycat Creations)**, nata a Roma, classe 1969, colleziona Barbie fin da piccola e inizia a creare le sue prime oobak per gioco dai tempi della scuola. Da qualche anno è presente nelle mostre e convention di Roma con le sue fantasiose creazioni, il suo stile evolve anno dopo anno, diventando sempre più accurato e dettagliato. Ama immensamente il mare e questa passione la trasferisce nelle sue bambole artigianali. Il suo lavoro principale riguarda le sirene dai lunghi capelli coloratissimi. Dal 2015 ha iniziato nuovi progetti cambiando genere, passando anche alla realizzazione di damigelle con abiti ispirati ai secoli passati. Il tema di Alice nel Paese delle Meraviglie è spesso presente nelle sue creazioni.

**The Black Swan Company** debuts in 2011 putting together the tailoring lessons of Francesco's grandmother and Mary's passion for hairdressing and embroidery. In 2012 the Company achieves worldwide success releasing the Black Swan. The doll causes big rush in the collectors world and after that hit, doll community and friends refers to the artists as the Black Swan guys that soon become "the Black Swan Company". Six months later the White Swan reaches even higher records and then other series are revealed. The first is the "Prima Ballerina" series who includes 13 ballerinas (Cinderella, Queen of Hearts, Bluebird from Sleeping Beauty Ballet, Sugar Plum Fairy and Nutcracker Snow Queen among others) and is still growing today with new Ballerinas. Black Swan focuses for the first time on elegance and floral evening gowns in 2013 with the "Secret Garden" series who includes characters like Flora, Violet and Agnes. The series has been concluded in 2017 with the last OOBAK, "The Black Tulip". Other dolls to mention are "The Flowers of Evil", tribute to Charles Baudelaire's poetry book; "Corpse Bride", another homage to Tim Burton animated movie and "Cupcakes Crush Saga", a doll fully dressed with candies, pies and cupcakes! After attending Italian conventions all over the years, Mary and Francesco decide to take a very big challenge and join their American friends and collectors flying for the first time in USA. The Black Swan Co. debuts in Houston and celebrates the space theme with a Fantasy collection represented by "Rainbow Galaxy", the OOBAK donated to Live Auction. In 2018 NBDCC held in Phoenix, the Black Swan Company wants to honor the beautiful theme "on the Avenue" with a collection of dolls inspired by couture. "Chanel" dolls is one of the new series presented in Kansas City with the "Diamond Birthday" collection where artists imagine Barbie celebrating her Jubilee in different cities and countries of the world. The Company produces today dolls based on incredible efforts for details, endless passion and strong love for tailoring, repainting and design.

**Thomas Soderberg** is a freelance illustrator and graphic designer from Port Clinton, Ohio. He has worked in New York City and spent 10 years designing costumes for theater in Boston. His love of Barbie and fashion goes back to childhood.

**Anj Calvo (A.K.A Gabooche** among his online friends in the dollie world) is A FORMER Creative Director and Senior Designer for Philippine based couturier Francis Libiran. He started his fascination with fashion dolls when he was around 3 years old. Fortunately, his parents are supportive enough to buy him dolls as a young boy. At around 1998 he began exploring the Art of doll customizing. Reading articles from the internet by famous repaint artisans and other doll customizers (from face, hair unto fashions). It was put on to halt when he focused on his education. At around 2006 his love affair with fashion dolls began when he started to work at a local retail brand. And Decided to pursue studying fashion design to create proper garments for his dolls. He then decided to design clothes for real people as well. But, he never forgot his love and passion for fashion dolls. Until now he is still in constant learning for techniques in repainting, rerooting and sewing... And he also believes that if you can't find the right doll for you, or what you want in life in general, you can always make around on what you have and customize your doll and your life to your liking!!!

# Ebay Charity Artists

**Art Ryan Biescas / #thedollholic:** a licensed Midwife and a Nursing Graduate. Worked as a Quality Analyst in an online car parts store from 2006 to 2019. A full time Doll Artist from 2019 up to present.

I begun in April 2013 and started accepting commissions May of the same year. I've been repainting dolls for 7 years.

• Repaint Style:

My repaint style is usually based on the stock makeup of dolls. I derive my inspiration from look of the dolls from the box but I inject my own style to it. I am also known for making pageant ready looks. Now I am venturing to adding details and make a slightly realistic face up. I am not a fan of super realistic human like face ups. I love dolls that look and feel like dolls when you are holding and playing with them.

Also it is very important to have your own signature style or look, otherwise your work will just be a copy of somebody else's style.

• Inspiration:

Jon Copeland has always been my inspiration when it comes to doll painting. The kindest, down to earth, and friendliest doll artist I've ever known.

• How I developed my talent/ skills:

Self thought mostly. But Practice makes perfect. I have always believed that we are all born with this ability but it only become a talent when we hone.

• What is my biggest achievement in repainting dolls?

In my humble beginnings, I was asked to repaint Dolls for Auction in IFDC for three consecutive years. Some of my doll repaints were also featured in some of the doll exhibits locally and internationally. I consider it as an achievement to see my Oba Maestras reach the different corners of the world. This year, I was invited to donate an OOAK Doll for Charity Auction in Roma Fashion Doll Convention.

My name is **Corinne Thorner**; I live in France with my family. A pediatric nurse by trade, I have been led to work at home in order to take care of my children who are suffering from a rare disease. From an early age, I have always been enthralled by dolls of all kinds. Very young I was initiated to dressmaking, embroidering, miniature painting of figurines, and handcrafted objects.

In 1999, I founded the "Creations COTHO" which combined all these different interests into a unified project: the creation of artist's fashion and repaint dolls.

My creations are a faithful reflection of my free and rigorous mind: I may conceive a fairy, a woman wearing a haute couture dress, as well as a female warrior or some historical figure: for my desire for invention and novelty knows no boundaries.

The quality of my creations is enhanced by the use of precious materials and hopefully my work in return contributes to the magnificence of the dolls.

My dolls are just like me as: lively audacious individuals. It is my wish they'll help you fulfilling your dreams.

**Judy O'Connell** was born and grew up in Casper, Wyoming, USA. After meeting her husband of 34 years, she has lived in Northern Minnesota a couple times, West Virginia and now resides in Florida. His employment has given opportunity to travel that inspires ... England, Ireland, South Africa, Paris, to the countryside and castles of the UK and northern Italy!

Judy has been a collector since 1994 ... Barbie® doll's 35th anniversary. Silkstone dolls are her favorite Barbie® dolls. Even though she wasn't allowed to have any Barbie dolls as a child, she has certainly made up for lost time and enjoys a very lovely doll "Queenom" housing 2000+ dolls. Yes, Barbie sometimes has to share the spotlight now. Other hobbies include 1:6 scale dioramas/doll houses, Shamus the cat, and traveling with hubby. In 2008, after 30 plus years working in an office environment, thanks to her super supportive husband, she was able to leave that world and stay home to focus completely on dolls, fashions and jewelry. Although having no formal art or design education, as the oldest of five children, her Mother taught her to sew and paint at a very young age. Judy has attended the National Barbie Convention every year since 2002, several years of Grant A Wish mini-convention, KenVenton, 2017 OOAK Doll Festival and 2018 IDC. She has donated OOAK dolls to all of these conventions as well as Kelly Konvention, 2019 Reflections, MFDC, and Australian Doll Convention. ... So happy to share with RFDC in Rome now! Always happy to contribute to a good cause especially in such an enjoyable way!

**Sara Tiziana** ama le Barbie da quando da bambina erano le sue fedeli compagne di gioco. Ha iniziato a collezionare dopo che il padre le regalò Barbie as Marilyn, la sua prima Barbie da collezione. Da allora non ha più smesso, allargando il suo interesse anche ad altre fashiondolls. Appassionata di fotografia, ha collaborato all'organizzazione del Photocontest RFDC delle edizioni passate. Si diverte a creare diorami per le sue bambole ed a customizzarle, oltre che a fotografarle.

Mi chiamo **Simona Perucci**, in arte **Falenanotte**. Sono una stilista di moda ed una pittrice passione che ho ereditata da mia nonna. Ho sempre dipinto quadri ed ho partecipato ad alcune mostre. La mia avventura con le Barbie è incominciata nel 2013 collezionandole, poi la mia vena artistica ha preso il sopravvento ed ho iniziato a personalizzarle ed è nata la mia passione per le oak. La mia infinita curiosità ed il desiderio di provare e sperimentare sempre nuove tecniche e materiali, mi ha portato a non focalizzarmi in un solo campo ed ho cominciato a studiare l'arte delle miniature e dopo tantissimi anni di studio e pratica ho raggiunto un livello professionale anche se sono sempre in costante evoluzione. Ho deciso di applicare queste conoscenze alle mie oak, portandomi a saper realizzare un bambola completa dall'abito, al reoot, al repaint, agli accessori ed integrarla con miniature realistiche legate alla vita quotidiana quali per esempio cibi, suppellettili ed animali. Adoro realizzare personaggi di ogni genere anche se il mio preferito è il fantasy.

**Maria Cristina Bisulli**, **Enixe Atelier**, da sempre appassionata di arti creative e manuali, dopo gli studi umanistici , frequenta corsi di moda, costume teatrale e relooking d'ambiente in chiave Shabby fusion. Per diversi anni lavora a stretto contatto con persone diversamente abili che le fanno scoprire una visione del mondo "non convenzionale". Nel 2010 scopre casualmente il magico mondo delle bambole One Of A Kind, e se ne innamora immediatamente. Di natura curiosa , inizia a fare ricerche tramite diversi canali per approfondire l'argomento, ed inizia a sperimentare diverse tecniche su diversi tipi di bambole. Crea "Enixe atelier" e con questo nome, negli anni a seguire, partecipa come espositrice alle più importanti fashion doll convention .

**Paulo Miranda**, an artist of excellence, was born in Lisbon, where he lives and works.

In 2004, Paulo successfully concluded the Degree in Fashion Industrial Design in Magestil – Lisbon Fashion School. Since then he has been working as a freelancer in association with a number of national and international fashion companies and cultural organizations.

Paulo Miranda took part in many editions of the Portuguese Doll Convention, and in 2015 he won an award in the category "Diorama with an OOAK (One Off a Kind Doll)" featuring the Boho Barbie™ in the theme "Barbie™ travels in pink into the woods". In 2016, he won an OOAK award featuring the Mata Hari Barbie™. During that time, Paulo was able to develop the techniques and concepts that fostered the creation of a new brand in 2017 – Couture Extravaganza by Paulo Miranda.

The focus of Couture Extravaganza is to modernize and boost the Dolls Industry, producing exclusively each piece and respecting its own concept and the existing fashion concepts.

The haute couture clothes are always handmade by Paulo Miranda and limited in number.

Couture Extravaganza by Paulo Miranda has become a trusted brand that delivers quality and prestige.

# Ebay Charity Artists

**Cat Little** : I am a native Texan and my passions have always included art and dolls. I fell in love with Barbie many many years ago and was thrilled in 1998 to find a secondary market to collect the Barbies of my childhood, new Barbies, and OOAKS. I occasionally create my own OOAKS, but consider myself in the amateur category. I cannot sew, love to draw, sometimes paint, and use unconventional materials at times for my creations. "Styling Barbie" is my most favorite thing to do.

Attending my first National Barbie Doll Collectors Convention in 2007 was the beginning of my "love affair" with the Barbie World. In 2015, I was asked to be a Raffle Co-Chair for the National Convention and through this I have been so blessed and inspired by so many. It has been an honor to continue in this position.

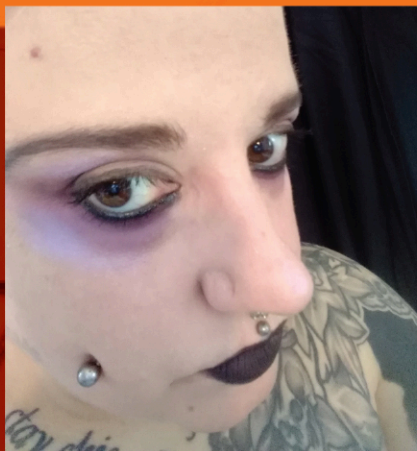

**MASTER OF DOLLS**: Ha appena festeggiato i 5 anni di attività, creativo e istrionico , segue sempre i capricci della sua fantasia.

Lo spirito del circo prende vita nei suoi clown con un pizzico di malinconia.

Le sue oak riassumono esattamente il significato della parola ... sono pezzi unici.

**Anna Maria Olivieri** : ho 45 anni, sposata, mamma, architetto... Sono nel mondo di barbie da 4 anni circa. Ho iniziato per nostalgia, per togliermi una voglia di bambina: avere Dallas snodato. E ho fatto così la mia prima spesa su ebay. Da cosa nasce cosa: ho rivisto la fiori di pesco, la superstar, la beauty secret... ho riesumato le mie di bambina dal garage. Ho poi scoperto le oak che mi hanno aperto un mondo: potevo realizzare la barbie dei sogni, tutta mia e unica, nello stesso tempo mi dava la possibilità di tirare fuori un mondo interiore ancora inespresso. Ho iniziato con una, poi due, tre e avanti così. Ho sempre realizzato barbie oak per me, salvo poche eccezioni. Questa è la prima volta che mi espongo ad un pubblico vasto. Ho voluto provare e mettermi in gioco. Il mio logo, realizzato per l'occasione, racchiude nelle sue banali iniziali il mio sentimento per questo mondo.

**Alicia, Mamau** per gli amici, milanese, pittrice, illustratrice, tatuatrice.

Solo da pochi anni si occupa anche di bambole, che realizza ispirandosi principalmente a personaggi storici ed icone pop.
